Experiential Learning Conclave

Experiential Learning Conclave - 2022 at Guwahati was a 4-day event starting from 31st March, 2022 to 3rd April, 2022 that took us through an experiential journey, where we had gained a first-hand insight on how curriculum concepts can be taken to students in a better way. A large number of educators from different part of India successfully demonstrated an outstanding implementation of experiential learning in almost every sphere within the education system. This conclave was an attempt to bring educators to the centre stage, where they shared their experiences with the audience. We had an excellent opportunity to listen and interact with some of the preeminent speakers like Mr. Vikram Singh Rooprai (Educator and Heritage Activist), Ms. Divya Lal (Managing Director, Fliplearn), Ms. Anju & Pascal (Founder Director, Mahatma Gandhi International School) and Prof. Manish Jain from IIT Ahmedabad. Mr. Dilip Kumar, Principal, Star Public School and Mr. Julfikar Ahmed Chaudhury, PGT (IT) from Star Public School participated in this conclave. About 378 delegates, stalwarts in the field of education amalgamated in Guwahati to share and exchange their experiences, ideas and case studies on experiential learning, the need of the hour, according to the guidelines of NEP 2020. Besides, a glimpse of Northeast India was also showcased through various mediums like song and dance performances, exhibits of handicraft, food, traditional dresses and tours to nearby historical places. Overall, it was magical and we had an interesting and enriching experience!!

Director's Visit

Shri. Sajjan Bhajanka, Chairman, Star Cements Ltd. accompanied by Shri. Rajendra Chamaria (Vice Chairman/Managing Director, Star Cement Ltd), Pradeep Purohit, Chairman (S.M.C), visited the school on 10th April, 2022.

They were taken around the school and were apprised of the recent developments taking place by the effort of school staff members and students.

A small presentation was shown to the dignitaries highlighting the recent achievement in academics, activities, school ranking, Social & Cultural activities, and various competitions organized at State and National level.

It was really an inspiring visit which filled everyone with zeal to work harder with a never dying spirit.

**From the pen of Sh. Narendrajit Singh Rawal
(Retd. Principal, Halwasia Vidya Vihar,
Bhiwani, Haryana)**

That is how I made my library! " Some return the book, but in a terrible condition - with scribbles, frayed edges or torn pages. Some return it in the same condition and yet others in a better condition than when borrowed".

A man had a strange shopping list of 20 Cockroaches, 15 spiders, 3 lizards and half a kilo of dust. When asked he said, "The landlady has asked me to leave the flat in exactly the same condition as when I first came in".

So, how do we live our life? Do we live well and leave the world a better place? Do we mess up our lives and make it terrible for others? Do we complicate matters and make it difficult for others? Are we problem creators, problem solvers or ourselves problems?

We should live in such a way that we make life simple, easy and happy for ourselves and for others. We, therefore need to learn how to do so.

Life's lessons: Life is the best teacher. A wise man learns from other people's mistakes, a fool from his own, and a bigger fool never! Instead of learning by 'trial and error' or 'hit and miss' method, we could learn from the wisdom of others and then test those lessons through our own experiences.

Wrong lessons: There is also a chance of learning wrong lessons from life. A teacher was demonstrating the ill effects of alcohol to her class. She put some worms in a beaker of alcohol. The worms struggled and died. "What lesson do you learn from this?" asked the teacher. A student concluded, " Whenever you get worms in the stomach, drink alcohol!" The lessons from the wise help us to validate our knowledge.

Knowing and Doing: Knowing is not doing. Doing is doing. Knowing how to live well is not enough. We must put the learnt lessons into practice, then alone does life become easy and happy.

यज्ज्ञात्वाभ्यस्य च जीवनं सुखाय भवति

**Knowing and practising which, life becomes easy and happy.
Life is what you make of it.**

“Leverage your Financial Quotient by Education”

Money Smart School Program is an initiative of National Centre of Financial Education. The NCFE and CBSE have jointly developed comprehensive study material for students of class VI to X.

Financial Education curriculum has been developed in such a way that it integrates topics and various modules within the existing subjects as an important life skill for holistic development of each student. The program is based on two pillars; education and awareness and aims to establish a sustainable financial literacy campaign that will empower an entire generation.

Kids must be taught the basics of money, they should be encouraged to save money and they must be apprised of knowing about earning interest on savings and effects of inflation. Mr. Dilip Kumar, School Principal conducts classes on Financial Education for Grade VI to X.

BENEFITS FOR THE SCHOOL

The foremost benefit for schools implementing the Money Smart School program is that their students after becoming financially literate will be better equipped to deal with today’s complex financial products and services and exhibit prudent behaviour and attitude when it comes to managing their own money. Apart from this other benefits include:

- **Schools implementing this program will be certified as Money Smart Schools.**
- **A certificate and a badge will be issued by the NCFE which the schools can put up on their website and social networks.**
- **Training and development programs for its teachers free of cost from time to time.**
- **Students will be better equipped to perform in the National Financial Literacy Assessment Test.**
- **NCFE will facilitate school/students to visit financial sector regulators where they can gain a perspective on how the regulatory mechanism in our country works. Schools shall get priority in future endeavours of NCFE and shall be part of the social media campaign of NCFE regarding Money Smart Schools.**

Shad Sukra

Shad Sukra is marked by one of the community's biggest festivals. Shad Sukra is the Jaintia way of offering their thanks to the creator for all the blessings and bountiful harvests received – characterized by many symbolic rituals, dances and the best of traditional apparel.

Shad Sukra ('the dance of peaceful hearts') is held during the month of April. Spring is symbolic as a season of rebirth, as is the case in many societies. It signifies the beginning of new cycles during which new seedlings are planted. Shad Suk Mynsiem is an agrarian festival and celebrates the optimism for the coming year.

The festival is celebrated with festive fervour in Nartiang village, 65 Kms from Lumshnong. Nartiang is also known for the Durga Mandir which is said to be 600 years old and is counted as one of the 51 Shakti Peethas. Nartiang is also known for its one of the tallest monolithic parks in the world. The Monoliths of Nartiang are magnificent archaeological structures.

On 23rd April, Mr. Dilip Kumar, Principal and Sh. Narendrajit Singh Rawal (Retd. Principal, Halwasia Vidya Vihar, Bhiwani, Haryana) had been invited to witness the festival by his students, Mr. Raja Sing Raliang, Drasten, Aibadskem and Banshgainlang who had studied in the same school in Haryana, Rawal Sir had served as the Principal for about 30 years.

The hospitality received and the food served on this occasion was an overwhelming gesture to feel and behold.

The visit to Nartiang was indeed "a memorable one and never forgetting visit to such a culturally and historically rich place", as said by Narandrajit Singh Rawal.

STAR PUBLIC SCHOOL

Star Public School is one of the best schools to attend, both academically and in terms of the overall growth of a student. The school provides students with the finest chance to excel in whatever discipline they excel in, whether it is athletics, co-curricular activities, or academics. The school has given me several opportunities to participate in various activities, including sporting events, athletic meets, scientific exhibitions, and other events both inside and outside of the state, as well as much-needed scholarships. I am exceptionally lucky to attend one of our state's top institutions, which has had a significant impact on my overall development. For a high-quality education and general growth, I strongly urge you to send your child to Star Public School.
