All our efforts are rooted in the following **founding beliefs**...

The Power of Play

Children learn the best through play, and retain the learning for longer.

The Promise of STEM

Practical understanding of STEM concepts is critical to success in the future.

The Potential of a Child

Every child is the potential 'maker' of a brighter, better future.

The Pride of Making

Every child can be a contributor to the society, not a 'passive consumer'.

The school has given me several opportunities to participate in various activities, including sporting events, athletic meets, scientific exhibitions, and other events both inside and outside of the state, as well as much-needed scholarships.
